

**ROGER S. FAUBEL
SANTA MARGARITA WATER DISTRICT
DIRECTOR**

Name: Roger Faubel

Age: 57

Occupation: Water Utilities Advisor

Thank you for the opportunity to serve two terms at the Santa Margarita Water District.

Since 1996, we have fought hard to keep your rates as low as possible, with nine continuous decreases. Additionally, we have increased your emergency reserve capacity by 300 percent and kept a 1996 promise to implement a back-up supply system in the event of a natural disaster or security alert.

As the SMWD Treasurer and chair of the Finance Committee, I pledge to maintain our record of fiscal stewardship and never have hidden taxes.

I continue to stand for progressive public policy that focuses on public participation and eliminates government bureaucracy. My focus is the well being of all aspects of community, whether that means championing water conservation or giving the Boy Scouts the chance to utilize the Oso Reservoir for recreation and educational purposes.

I am a small business owner with 30 years in the utility business. I earned a B.A. degree from California State University, Fullerton and was an expert witness before the California Public Utilities Commission. It's been an honor to serve you, and on November 7, I respectfully request your vote. Thank you.
